

Made to Match - Mouldings

MOULDING A

INSTRUCTIONS:

1. Check your moulding size to see if it meets the criteria here. If not please try one of our other M2M products.
2. Check the dimensions fit within the parameters
3. Enter your dimensions, choose your wood and quantity and get an instant price. Then follow the process and get your custom made product delivered to your door.

You can use this custom profile for any product that is produced as a linear moulding where the general characteristics of your profile fall within the guidelines shown.

This applies to copying or matching an existing wooden moulding or matching the design of a proposed moulding.
